

English First Paper

শ্রেণি: এসএসসি (SSC) • বোর্ড: বরিশাল বোর্ড • সাল: 2025 • ধরন: বোর্ড পরীক্ষা (Board Exam)

বহুনির্বাচনি প্রশ্ন (MCQ) - ৪ টি

1. Every moment fossil fuels are burnt and they release ____

- | | |
|---|--|
| (ক) carbon dioxide | (খ) nitrogen |
| (গ) hydrogen | (ঘ) oxygen |
| (5) compacting | (6) lessening |
| (7) reducing | (8) generating |
| (9) accumulation | (10) radio |
| (11) emission of energy as electromagnetic wave | (12) redemption |
| (13) melting ice | (14) cutting down trees |
| (15) planting trees | (16) growing or increasing forest |
| (17) take up | (18) take in |
| (19) take out | (20) take over |
| (21) coal, mineral oil and natural gas | (22) sunlight |
| (23) renewable energy | (24) none of the above |
| (25) the enormous increase of carbon dioxide | (26) the design of a structure |
| (27) the effect of fossil fuels | (28) the moving or rotation of the earth |

সঠিক উত্তর: (ক)

2. Every moment fossil fuels are burnt and they release ____

- | | |
|--------------------|--------------|
| (ক) carbon dioxide | (খ) nitrogen |
| (গ) hydrogen | (ঘ) oxygen |

সঠিক উত্তর: (ক)

3. Coal is one of the fossil fuels used for _____ energy.

- | | |
|----------------|----------------|
| (ক) compacting | (খ) lessening |
| (গ) reducing | (ঘ) generating |

সঠিক উত্তর: (ঘ)

4. What is the contextual meaning of the word 'radiation'?

- | | |
|--|----------------|
| (ক) accumulation | (খ) radio |
| (গ) emission of energy as electromagnetic wave | (ঘ) redemption |

সঠিক উত্তর: (গ)

5. Greenhouse effect is increased by _____

(ক) melting ice

(খ) cutting down trees

(গ) planting trees

(ঘ) growing or increasing forest

সঠিক উত্তর: (খ)

6. What is the similar meaning of the word 'absorb'?

(ক) take up

(খ) take in

(গ) take out

(ঘ) take over

সঠিক উত্তর: (খ)

7. To produce electricity or to heat our houses, we use _____

(ক) coal, mineral oil and natural gas

(খ) sunlight

(গ) renewable energy

(ঘ) none of the above

সঠিক উত্তর: (ক)

8. Which thing can human being never change?

(ক) the enormous increase of carbon dioxide

(খ) the design of a structure

(গ) the effect of fossil fuels

(ঘ) the moving or rotation of the earth

সঠিক উত্তর: (ঘ)

সৃজনশীল / রচনামূলক প্রশ্ন (CQ / Written) - 14 টি

1. Read the passage and answer the questions Humans can neither change the sun's radiation nor the earth's orbit around the sun. But they can control the increase in the amount of greenhouse gases and its effect on the atmosphere. Only during the last hundred years the carbon dioxide concentration has been raised alarmingly in the atmosphere and we humans can be held responsible for this. The main cause of the increase in carbon dioxide level in the atmosphere is the burning of fossil fuels. Since the end of the 19th century, industrial activities increased rapidly giving rise to many factories. These factories required energy, which was produced through the combustion of coal. Besides coal, other sources of energy such as mineral oil and natural gas were also burned to heat our houses, run cars and airplanes or to produce electricity. Nowadays, about 85 million barrels of crude oil are burned daily. Every time a fossil raw material is burned, it releases carbon dioxide into the air, Therefore, it is clear that more and more greenhouse gases like carbon dioxide are being generated worldwide by humans. Moreover, we are also strengthening the greenhouse effect by deforestation, which means cutting down trees. Every year enormous areas of forests are destroyed by people to obtain wood and to clear regions for mining and to create pasture. This loss of the forest causes dual problems. Trees that are burned up release large volumes of carbon dioxide gas into the air. On the other hand, as forests absorb a lot of carbon dioxide from the air and deliver oxygen instead, we also destroy an important storehouse of carbon dioxide when we clear forests. Answer the following questions:

2. Choose the correct answer from the alternatives :

3. How can trees help us in maintaining ecological balance?

4. What is the impact of fossil fuels on atmosphere?

5. What are out of humans control?

6. What things can human being do for a congenial atmosphere?

7. What lesson do you get from the passage? Write the answer within two or three sentences

8. Read the following text and fill in each gap with a suitable word based on the information of the text: Zainul Abedin (29 December, 1914-28 May, 1976) was a Bangladeshi painter. He had an extraordinary talent and was internationally recognized for his paintings. He became well-known in 1944 through his series of paintings on the great man-made famine in Bengal during British Colonial rule. He played a vital role in the art movement in Bangladesh and was the founding Principal of the Government Institute of Arts (Now Faculty of Fine Arts) at University of Dhaka. His paintings on Bengal famine are considered as his most characteristic works. His homeland honoured him with the title 'Shilpacharya' or the great teacher of arts for his artistic and visionary qualities. He was a pioneer of the modern art movement and was rightly considered as the founding father of Bangladeshi modern arts. Zainul Abedin is considered as a (a)_____ of Bangladeshi modern art. He was an (b) _____ of outstanding talent. He gained international (c) _____ through his series of paintings on famine in 1944. In his paintings he showed his (d) _____ and visionary qualities. Even today he is (e) _____ Shilpacharya.

9. Read the following text and answer the questions Charles Babbage was an English mathematician. He was also a mechanical engineer who is well-known for originating the concept of computer. He was born on 26 December 1791 in London. He entered Trinity College in October 1810. He was transferred to Peterhouse, Cambridge. He was the top mathematician there. He received an honorary degree without examination in 1814. He was elected a fellow of the Royal University in 1816. Babbage is famous for inventing the first mechanical computer in 1822 that eventually led to today's computer. He died at his home in London on 18 October 1871.

10. Complete the table below with information from the above passage: Charles Babbage Life sapn: (i) who/what activities time/year place Charles Babbage (ii) 1810 Trinity College He was elected a fellow 1816 (iii) (iv) was invented 1822 He received honorary degree (v).....

11. Write a summary of the above passage in your own words.

12. Match the parts of sentences in columns 'A', 'B' and 'C' to write five complete sentences: Column A
Column B Column C (a) The moon (i) the moon reflects (i) on the gift of the sun. (b) She (ii) has an appeal
(ii) of her own. (c) The sun (iii) has no light (iii) on poets and artists. (d) To illuminate the earth (iv) light
depends (iv) vast flood of light. (e) The moon's (v) pours forth a (v) a small fraction of brightness.

13. Put the following parts of the story in correct order to make the whole story. Only the corresponding
numbers of sentences need to be written: (a) People praised him more than their king. (b) The guest
praised the king. (c) The name of that man was Hatem Tai. (d) But the guests praised Hatem Tai also. (e)
Oneday, the king gave a dinner. (f) He was not rich but very hospitable. (g) So, the king felt happy and
proud. (h) Long, long ago, there lived a very kind and generous man in Yemen.

14. Write a paragraph on 'Water Pollution' answering the following questions: (a) What is water pollution?
(b) Why is water called life? (c) How is water polluted? (d) What are the effects of water pollution? (e)
What measures should we take to prevent water pollution?
