1. Read the passage and answer the questions 'Heritage' is what we inherit from the past, live with in the present and then pass on to our children or future generation. Our unique source of life and inspiration is our cultural and natural heritage. When we speak of 'World Heritage', it indicates places and sites that we inherited from the past and pass on to the future generation of the entire world. The 'Shatambuj Mosque' in Bagerhat is such a heritage. It became a UNESCO World Heritage site in 1985. Originally, the historic Mosque City was known as 'Khalifatabad'. It is situated at the outskirts of Bagerhat town not very far from the dense mangrove forest of the Shundarbans. Khalifatabad was a Muslim colony. It was founded by the Turkish general, a saint warrior Ulugh Khan Jahan in the 15th century. The infrastructure of the city reveals significant technical skills in many mosques as well as early Islamic monuments. Baked bricks were used for the construction of the buildings. The planning of the city was dominated by the tradition of Islamic architecture and the decorations were a combination of Mughal and Turkish architecture. Khan Jahan built a network of roads, bridges, public buildings and reservoirs to make the city habitable. There were about 360 mosques in the city. Among them the most remarkable is the multi-domed Shat Gambuj Mosque. The mosque is unique in the sense that it has 60 pillars that support the roof, with 77 low height domes. The 4 towers at 4 corners have smaller domes at the top as well. The vast prayer hall has 11 arched doorways on the east and 7 each on the north and south for light and ventilation. It has 7 aisles running along the length of the mosque and 11 deep curves between the slender stone columns. These columns support the curving arches created by the domes. The thickness of the arches is 6 feet and have slightly narrowing hollow and round wall. The west wall in the interior has 11 'Mihrabs' (niche in mosque pointing towards Makkah). These Mihrabs are decorated with stonework and terracotta. The floor of the mosque is made of brick. Besides being used as a prayer hall, Khan Jahan used the mosque as his court too. Today, it is one of the greatest tourist attractions and one of the best architectural beauties of Bangladesh. Answer the following questions:

2. Choose the correct answer from the alternatives :

3. What do you mean by 'World Heritage'?

4. What did Khan Jahan Ali do to make the city habitable?

5. What are the things that make the Shat Gambuj Mosque so special?

7. Where is the Shat Gambuj Mosque located?

8. Read the following passage and fill in each gap with a suitable word based on the information of the passage: Fish population is in serious danger from global warming. Climate change is increasing the water temperature in rivers, lakes and seas. This means there is less food and Oxygen available for fish. It also means the fish may not grow fully and may have fewer fish fries. Some fishes will become extinct if temperatures rise even by one or two degrees Celsius. Climate change increases the pressure on fish population. Fishes are one of the world's most valuable biological assets. Forty percent of people in the world eat fish as their main source of protein. If we fail to reduce greenhouse gas emissions, we will increase the pressure on fish. As a result, people who depend on fish will suffer from hunger and poverty. It is (a) _____ from the passage that global warming is (b) _____ great threat for fish population. (c) _____ global warming, food production and oxygen (d) _____ in water decreases. As a result, some fishes may be extinct (e) _____
